

ANYTIME MINUTES © Lenny Boudreau lenny@lennyboudreau.com

ANN: Rollover plans, unused minutes, nights and weekends. Sure, there are all types of calling plans. Some lame plans even have the nerve to say that they have "Unlimited Anytime Minutes!" Anytime Minutes? I doubt it.

We have the only plan with REAL Anytime Minutes. That's because we implant the cell phone right into your skull. So, where ever you go, your cell phone is there... Anytime!

With a simple "day surgery" procedure, you'll be calling anyone and everyone at anytime!

(SFX: Phone ring)

MAN: (just waking up) Hello? (WIFE in background "Who is it Bill?")

CALLER: Hi Bill. It's me Tim.

MAN: What do you want? Do you know it's three o'clock in the morning?

CALLER: Yeah, sorry. I sneezed and my cell phone speed dialed you... So, what have you been up to?

(SFX: phone hanging up)

And talk about "hands free" operation. No need for speaker phones or those silly headsets. Your phone is "set in YOUR head."

Skullular Cellular. For when you think you're so freakin' important you can't even take a pee without your cell phone.

(Sung) Anytime at all, all you gotta do is call, and it'll be there.
