ANN: Ahhh. The colors of Autumn. Red, orange, yellow... and black and blue. At St. Sumac General Hospital we specialize in leaf raking related accidents and injuries. St. Sumac is the number one outpatient hospital of it's kind. It may be the only one of it's kind.

We have a Blister Specialist on Call 27/7 to take care of all your blister needs. Lower back pains. Don't fret. We keep 3 tons of ice in the basement freezer.

Other treated ailments include:

Broken Rake Syndrome.

Poison Ivy, Poison Sumac, Poison Oak, Poison Snakes, Poison Mushrooms

Groin Pull

Raker's Elbow

Smoke Inhalation from burning leaves

Cramped butt muscles from bending. You remember bending don't you? You did it once this summer when you dropped your beer at the cookout.

And of course,

Big Ol' Blanket Full of Leaves Slung Over The Shoulder Disease.

Now featuring treatment for injuries due to the use of leafblowers such as:

Dirt and sticks embedded in your face

Hand that constantly tingles..

Inability to hear your cat screech as it is being blown into the neighbor's tree.

Our caring and sympathetic staff is trained not to laugh at you, no matter how you got injured.

Raking leaves can be a pain in the neck. Literally. And we can fix it. St. Sumac General Hospital.

St. Sumac General Hospital honors no health insurance but we still enjoy it when people take out that silly little insurance card like it means something.
